

We envision God forming us over the next 5 years into:

A church grounded in holy, Christ-centered worship expressed through the best traditional, Anglican forms and new creative models, Spirit-filled preaching and dynamic music.

A faith community brought together by our relationship with Jesus Christ, establishing us as brothers and sisters, different but equal, who respect one another, care for one another, and take care of one another as members of a loving family.

A church where the stranger at our door and the newcomer in our midst experience the kind of welcome and hospitality offered a friend or a family member returned from a long trip.

A faith community where a love of learning and the desire to be fully formed into God's image and likeness finds expression in multi-generational participation in a wide-range of creative formation programs for both heart and mind.

A giving community that shares the gifts God provides with those in need - in our area, region and the world.

A growing church ...

Growing because we have so much good news to share about what God has done and is doing and because we are becoming more effective at sharing that message as individuals and as a faith community.
